PROFESSIONAL EXPERIENCE

Al Arabia Cinema — **Full-Stack Software Engineer** Sep 2025 – Present
Giza, Egypt

- Own end-to-end development and production delivery of cinema business systems — including requirements analysis, database design, backend, frontend/mobile, testing, and deployment — across concession POS, warehouse/inventory ERP, HRMS, branch operations, and ongoing booking-system work.
- Built the cinema concession platform across React administration, Flutter POS, Flutter branch management, Laravel APIs, PostgreSQL, Redis, and offline-first branch synchronization for operations across 8 branches.
- Implemented inventory, purchasing, transfers, stock control, RBAC, bilingual Arabic/English workflows, reporting, partner integrations, and OpenAPI-documented APIs.
- Built and maintain RNS HR, a multi-tenant HRMS with biometric attendance integration, payroll/HR workflows, React administration, MongoDB, and a Windows bridge for ZKTeco devices.
- Maintain production infrastructure and delivery workflows with Docker, Linux/Nginx, GitHub Actions CI/CD, Redis, and VPS environments; troubleshoot production issues, networking/system problems, and branch operations.
- Provide employee training, system onboarding, production support, technical documentation, and cross-team/stakeholder communication.

Freelance — **Full-Stack Engineer** Jul 2025 – Jan 2026 · Contract

- Delivered BoatBnB, a large multi-role boat-rental marketplace platform, as sole developer from requirements and architecture through Vue admin, APIs, integrations, security hardening, and Docker deployment.
- Built role-based guest/host/agency/provider APIs covering discovery, bookings, payouts, chat, referrals, loyalty, insurance, support tickets, GPS, weather, S3 media, and Smsala OTP.

Triple Agency — **Full-Stack Engineer** Jul 2025 – Jan 2026 · Contract

- Delivered BlackHorse B2B wholesale/delivery, Estshary healthcare, Real Estate All-Stars, and TRC referral/commission platforms across multiple client projects.
- Built REST APIs, real-time Socket.IO features, Flutter applications, admin systems, payment/notification integrations, and production business workflows.

Harvest British College — **Software Developer** Jul 2024 – Jun 2025

- Built three Laravel CRM/management platforms: administration ERP, customer portal, and instructor portal.
- Implemented CRM pipeline, finance, HR, class management, REST APIs, 20+ operational reports, RBAC, and Twilio SMS automation.

SELECTED PROJECTS

Cinema Concession POS — Laravel · React · Flutter · PostgreSQL · Redis | Enterprise Platform · Al Arabia Cinema

- Built an end-to-end cinema concession POS ecosystem covering React administration, Flutter POS, Flutter branch management, Laravel APIs, PostgreSQL, Redis, and offline-first branch synchronization.
- Designed employee-focused sales workflows, inventory/purchasing integration, RBAC, branch operations, bilingual Arabic/English UI, partner APIs, and production deployment/support for 8 branches.
- Integrated POS with broader warehouse/inventory operations and planned scalable synchronization/service boundaries.
