PROFESSIONAL EXPERIENCE

Al Arabia Cinema — **Full-Stack Engineer & Project Manager** Sep 2025 – Present
Giza, Egypt

- Lead architecture and delivery of a cinema concession platform spanning React administration, Flutter POS, Flutter branch management, Laravel APIs, and PostgreSQL.
- Designed offline-first branch synchronization, inventory and purchasing workflows, RBAC, bilingual Arabic/English interfaces, and partner integration APIs documented with OpenAPI.
- Maintain Docker production environments and GitHub Actions CI/CD pipelines while managing requirements, technical documentation, and a microservices migration roadmap.
- Build and maintain RNS HR, a multi-tenant HRMS, and ERP Arabia, a warehouse and inventory platform for cinema branch operations.

Freelance — **Full-Stack Engineer** Jul 2025 – Jan 2026 · Contract

- Delivered BoatBnB, a boat-rental marketplace and ERP monorepo, as sole developer from requirements and architecture through production deployment.
- Integrated Stripe, Agora, GPS tracking, AWS S3, Redis, Firebase, and Docker-based deployment workflows.

Triple Agency — **Full-Stack Engineer** Jul 2025 – Jan 2026 · Contract

- Delivered BlackHorse B2B wholesale/delivery, Estshary healthcare admin and patient portal, Real Estate All-Stars, and TRC referral/commission platforms.
- Built scalable REST APIs, real-time Socket.IO features, and third-party payment/notification integrations across multiple client projects.

Harvest British College — **Software Developer** Jul 2024 – Jun 2025

- Built three Laravel CRM and management systems: administration ERP, customer portal, and instructor portal — live at harvestcollege.co.uk.
- Implemented CRM pipeline, finance, HR, class management, REST APIs for mobile applications, 20+ operational reports, and Twilio SMS automation.

SELECTED PROJECTS

Cinema Concession POS — Enterprise Platform | Al Arabia Cinema

- Lead architect for enterprise cinema concession POS — React Admin, Flutter POS, Flutter Branch Manager, Laravel API, and PostgreSQL with offline-first branch sync.
- Designed inventory/purchasing workflows, RBAC, partner OpenAPI integrations, and a microservices migration roadmap with 1,300+ pages of architecture documentation.
